

# Epic Boast Document

## Writing the Rough:

1. Answer all of the supplemental questions; add them to your list of notes for creating your original boast.
2. Sift through your prewriting, and, like a goldminer, find the precious nuggets to use when you start writing your first draft.  
\*Your prewriting is not your actual poem! It's the brainstorming, rough work for you to pull from to create your boast.
